

INVITATION

The General Lighthouse Authorities (GLA) of the UK and Ireland are delighted to invite you to attend the launch of a new commercially owned and operated international low frequency wireless timing and navigation initiative.

This **important event** will take place at **Trinity House** in London on **6th August 2015 commencing at 10:30am** and finishing at 4pm. Refreshments will be available on arrival from 10am. A **drinks reception** will be held in the Court Room at **Trinity House** from **6pm to 8pm** on the **5th August** for those available in London the evening before the launch event.

The initiative is led from the US, with substantial US industry financial backing. Based on eLoran technology, and with a smooth transition from the current UK eLoran when fully operational, this new service will complement existing and future Global Navigation Satellite System (GNSS) Timing and Navigation services and provide resilience against GNSS jamming and interference. The initiative covers many sectors including maritime, telecommunications, multimodal transport and logistics, finance and critical national infrastructure.

You are invited as an important stakeholder or recognised specialist in either Timing or Navigation or both. You will meet the organisation behind this initiative. You will hear presentations on how the service will be rolled out and how it will complement existing and future GNSS PNT services. You will also hear from industry experts as to why greater accuracy and resiliency in timing and navigation is becoming more important. You will participate in discussions and hear panel views on important aspects of PNT.

You are welcome to bring a colleague, although numbers are restricted so please do not delay in responding and informing us of additional potential attendees. Full joining details and agenda for the launch event will be sent on receipt of your offer to accept this invitation.

RSVP: Please contact George Shaw, George.shaw@rnav.org.uk, to indicate your acceptance and to nominate additional attendees.
