

# Loradd++ / core

## eLoran/Chayka receiver module

**Powerful Alternative PNT**

**Very small size 60 x 30 x 8 mm**

**Low power < 500 mW (3.3V)**

**Dual-channel receiver**

**Accepts E-field or H-field antenna signals**

**Dual serial interface for integrated systems**

**Connectable to u-blox GNSS receiver modules**

Specifications subject to change without notice

# Loradd++ / E

## Integrated GNSS eLoran/Chayka

### Loradd++ / E radome contains

- eLoran/Chayka E-field antenna & GNSS antenna
- eLoran/Chayka Loradd++ receiver module
- GNSS u-blox M8T receiver module
- Low power <700 mW (4-16 V)
- Loradd++ / E connects via single cable (up to 150 m) and dongle to USB port on PC
- Height/diameter 135/85 mm
- Ideal for integration with compass & inertial sensors

Specifications subject to change without notice.
