

# DoD Supports Spectrum for 5G

- Ligado is not offering a 5G solution
- DoD recognizes the value of 5G to the nation and its benefit to both the military and commercial interests
- To ensure U.S. global technology competitiveness in 5G, DoD acknowledges the need to share mid-band spectrum
- DoD is actively engaged in 5G experimentation examining ways to successfully share mid-band spectrum to become the world premiere 5G leader while protecting national security
- Established a team of experts to assess and review technical and operational proposals to enable spectrum sharing

Dynamic Spectrum Sharing

Smart Ports / Bases

Smart Warehouses and Logistics
